

STEP-N-LOCK VERTICAL PANEL

PRODUCT INFORMATION

- Impact resistant blow molded polyethylene 8" x 36" or 12" x 24" plastic panels combined with 28# or 43# molded rubber base
- Utilizing the Step-N-lock foot hole, simply step down and lock the panel into base. Six locking buttons are molded into the panel and correspond to six matching recesses molded into the base
- Panels and bases can be easily separated and stacked for transportation and storage
- Available in Engineer Grade or High Performance reflective sheeting
- A wide variety of messages and legends can be printed on one or two sides of the panel
- NCHRP 350 approved with barricade light
