

## **Certification of Crashworthiness For Category 1 Traffic Control Devices**

Department of Transportation  
Bureau of Highway Safety

Dear Sir:

This is to certify that TrafFix Devices Category 1 devices have met the NCHRP-350 TL-3 crash test criteria. These devices include the 28" Grabber Cone, 42" Grabber Cone, 42" Grabber Cone Vertical Panel, 28" Grabber Tube, 42" Grabber Tube, 42" Looper Cone, 42" Looper Tube and the 42" Channelizer Drums. Category 1 Certification is for devices without lights and with or without rubber ballast of 10lb., 12lb., 16lb., 25lb., 30lb. or 40lb.

Self-Certification for the Category 1 devices is based on crash test compliance with NCHRP 350 (TL-3) and on many years of demonstrably safe operational performance in the field. This certification also validates that these products have been manufactured to the same specification used for the NCHRP 350 tested products.

Sincerely,

A handwritten signature in black ink that reads "Felipe Almanza".

Felipe Almanza  
Director of Engineering
